Keynote Speakers

Bill Koffel
President, Koffel Associates

Bill Koffel is President of Koffel Associates is recognized as an expert in the fire protection and life safety aspects of codes and standards. With offices in MD, CT, MA, NC and the Middle East, the firm provides consulting; engineering; code development; seminar; and product testing services to clients worldwide. Formerly with the Maryland State Fire Marshal's Office, he was conducted licensure, certification, and accreditation surveys of health care facilities. Bill

serves on numerous NFPA Technical Committees, is the past Chair of the Life Safety Correlating Committee, and chairs the NFPA Life Safety Technical Committee on Health Care Occupancies.

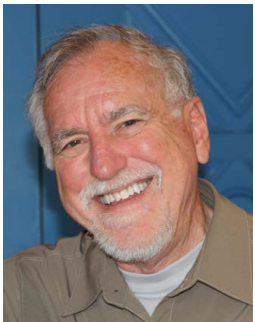

Kelly Mason
Director of Healthcare Partnerships

Kelly is the National Healthcare Manager for Specified Technologies Inc. (STI). Kelly has implemented programs for managing barriers in hospitals for over 15 years throughout the United States. Notable projects include the Cleveland Clinic, The Mayo Clinic, Borgess Medical Center and University Hospital in Cleveland. Mr. Mason has become well-known for his understanding of the life safety requirements in hospitals and how changes in the Joint Commission effect the planning of facility projects. Kelly has specialized

in implementing firestop programs and product solutions to meet the unique needs of healthcare facilities, including compliance with the Joint Commission, code compliance, infection control, and patient privacy.

Skip Gregory
Registered Architect & Healthcare Code Consultant

Skip Gregory is a registered architect, who served for over 17 years as Bureau Chief in the Office of Plans and Construction in the state of Florida. As the Bureau Chief, he was the Authority Having Jurisdiction for design and construction issues related to all licensed healthcare facilities located in Florida. Presently he works as a health care code consultant and provides training seminars and presentations for health care professionals and associations.

He is an outspoken advocate for resident directed care and household designs in nursing homes and patient centered care in hospitals. He serves on many national code committees and advocacy groups to humanize healthcare environments. He has been a member of the Healthcare Guidelines Revision Committee (HGRC) for over 25 years, and is the 3rd recipient of the J. Armand Bugun Pioneer Award from the FGI Guidelines Revision Committee.

Douglas S. Erickson
FASHE, CHFM, HFDP, CHC

Doug provides expertise in healthcare facilities planning, design, and construction with more than 40 years of industry experience, including

experience as a healthcare facility manager, consultant, an authority having jurisdiction, and the principal advocate

representing the American Hospital Association (AHA)/American Society for Healthcare

Engineering (ASHE) membership on national codes, standards, and built environment committees. He is a member of ASHE, the National Fire Protection Association (NFPA), and the American Society of Heating, Refrigerating and Air Conditioning Engineers (ASHRAE).

Doug currently serves as the CEO of Facility Guidelines Institute (FGI), a not-for-profit organization responsible for producing the Guidelines for Design and Construction of Health Care Facilities and whose mission is to produce consensus-based guidelines in healthcare. He is a founding board member of FGI and has had a leadership position with the Guidelines since 1985 and a committee member since 1978. Doug currently chairs the 2018 edition and was the chair of the 2014 and 2010 editions and vice-chair of the 1987, 1992/92, 1996/97, 2001 and 2006 editions.

Doug earned his Bachelor of Science in aerospace engineering at the University of Illinois/Champaign-Urbana and is the past Deputy

Executive Director of ASHE, Director of Planning, Design and Construction for the AHA, and the Director of Engineering for the Joint Commission in Chicago, IL. Doug was also selected for ASHE's highest membership award in 2013 – The Crystal Eagle.
